EXPERIENCE

Work

Huawei

📅 Jan 2022 - Sep 2022

📍 Saint Petersburg

Optimized the work of HarmonyOS (by metrics such as power consumption, instructions per cycle, runtime, frame rate), engaged in scheduling algorithms and frequency selection for CPU and DDR, reducing cache misses, data compression algorithms. Also optimized the most popular applications (TikTok, Genshin, PUBG, TaoBao, HoK), worked in the kernel and user space, wrote benchmarks, collected statistics, traces, analyzed data. Wrote patches for the kernel to get benefits, collect additional information, disable functionality

Internship

JetBrains

📅 Oct 2020 - Jan 2021

📍 Saint Petersburg

- Research
- Algorithms(DSU)
- Java/Kotlin

PROJECTS

HashLife

<https://github.com/MaxFanCheak/HashLife>

📍 Swift

- IOS app - CellularAutomata(Conway's "The life" game)
- 1.5 billion generations in sec

Optimization methods, Linear algebra and Math Analysis works

<https://github.com/MaxFanCheak/Linear-algebra-Math-Analysis>

📍 Python

<https://github.com/MaxFanCheak/Linear-algebra-Math-AnalysisPython>

- Matrix
- 3d-geometric
- Tensors
- Gradient

UTF-Converter

<https://github.com/MaxFanCheak/UTF-Converter>

📍 C

Unicode formats converter

Grep in Swift

<https://github.com/MaxFanCheak/Aho-Corasick>

📍 Swift

Aho-Corasick

MOST PROUD OF

Global Data Compression Competition
2021 and Russian National olympiads

Violet on CodeForces

STRENGTHS

C/C++/Rust/Go

System programming

Python/Pandas/NumPy/Matplotlib/PyTorch/SCV

Swift/Objective-C/IOS

Java/SQL

Git

Linux/HarmonyOS/Android

ML

Networks

Functional programming

Optimization methods

Cryptography

EDUCATION

Bachelor of Computer Science

ITMO University

📅 Sep 2020 - Jun 2024

Computer science

Higher College of Computer Science

📅 Sep 2016 - Jun 2020

LANGUAGES

Chinese

English

Russian

QUALIFICATIONS

IOS developer

VK

📅 Sep 2020 - Jan 2021
